Getting Started:

1. Identify a person within your company that will manage transit pass orders each month.
2. Get an idea of how many employees would like to participate in the program- we have ready-made surveys you can use!
3. Reach out to Midtown Transportation at least a month prior to when you would like to start the Transit Pass Program for employees.
4. We will set up a time to train the [point contact] on ordering procedures, replacements, troubleshooting etc.
5. Transit pass orders are due two weeks prior to the month the transit passes will activate.
6. Midtown Alliance will invoice your company directly for the transit passes purchased, giving you the ability to subsidize or pass along the cost to employees through pre-tax payroll deductions.

Pre-tax Payroll Deductions for Employees:

- Pre-tax benefits based on Section 132(f) of the IRS federal tax code (Qualified Transportation Fringe Benefits)
- Providing this allows employees to pay for certain commute expenses with pre-tax dollars, up to a specified dollar amount.
- It works by reducing an employee's taxable income, which reduces company payroll taxes and increases the employee's effective compensation, similar to a wage increase.

Qualified Commute Expense	Limit
Transit	Up to \$255/month*
Vanpool	Up to \$255/month*
Bicycle	Up to \$20/month
Parking	Up to \$255/month*
