

TARGETCW BONUS PROGRAM

TargetCW introduced a 401(k) bonus program to help encourage workers to participate in our 401(k) plan to save toward their retirement. We hope that you consider investing in your future and contribute these funds to your 401(k).

Amount

\$500 Annual Bonus

Requirements

- Work 1,200 hours for TargetCW during current plan year
- Must be on active engagement through the end of December
- Be enrolled in the 401(k) program during the month of December
- Contribute at least \$1,000 to our 401(k) program during the current plan year
- Income is less than \$100,000 annually

When?

During the last two weeks of December, a member of the Benefits Team will contact all employees who are eligible for the bonus. You will then be given the opportunity to elect how much of your \$500 bonus you would like to defer directly into your 401(k) account. Any funds deferred to your 401(k) will be fully vested, just like your regular employee contributions.
